CITY GAS COMPANY LEVEL BILLING PROGRAM

- Eliminates High Winter Bills
- Allows Small Monthly Payments
- Helps You Plan Your Budget

Over the course of the year, your monthly gas bill goes up and down depending on the amount of gas you use.

In the winter months, it's usually higher because your heating system is in use. In the summer months your bills are much lower because you don't need to heat your home.

With Level Billing from City Gas Co. your gas bills will be just about the same all year long.

Q Who is eligible?

A All year-round residential customers.

Q How much extra will it cost me?

A Nothing. It is for your convenience.

Q How is the budget amount determined?

A We calculate your Level Billing amount by looking at your last 12 months gas cost. This amount is divided by 10 to arrive at your Level Billing amount.

Q How does it work?

A The Level Billing payment period begins in August and runs 10 consecutive months. June and July are adjustment months when what you paid and the actual cost is balanced out.

Q What happens if I join after the Level Billing Program Begins?

A Our Level Billing year begins in August. If you start your budget plan later in the year it will be recalculated to reflect the later start date.

Q How do I get on level billing?

A Simply pay the proposed Level Billing amount which will show on your August bill.

Q Does the budget amount ever change?

A Yes, there are several reasons why your Level Billing could change. These include a change in your energy consumption, unusual weather or rate increases or decreases.

Q Can I go off the budget?

A Yes, but if the Level Billing program is to serve you best, we recommend you continue on it for at least one full year.

Please call CITY GAS CO. if you have questions about Level Billing 715-627-4351
